Bhawar and Dr. Ravindra Jadhav felicitated the chief guests.

### 2. Session:

After inaugural, the workshop was started at 11.30 am.

- Dr. Pankaj Kharabe started his session with the basic concept and history of Pharmacognosy and he explained how the subject is considered as an ancient roots of modern medicine.
- Dr. Pankaj Kharabe explained the concept of partition coefficient for herbal drugs and the concept of structural transformation of allylsulphides.
- Various chromatographic techniques and its limitations were explained by him such as
  1. HPLC
  2. Paper Chromatography
  3. TLC / HPTLC
  4. NPHPLC
  5. RPHPLC

### 9. Gas chromatography etc.

Sir explained the importance and use of various spectroscopic techniques for characterization of phytoconstituents.

In the afternoon session, 3.00pm to 5.00 pm practical training of HPLC handling was conducted by Dr. Pankaj Kharabe.

**3. Gratitude:** Thanking speech was derived by Mrs. Rajashree Ghogare.

## **Details of the Event:**

## : About Workshop:

The US is the largest market globally for pharmaceutical sales, so having a good understanding of FDA procedures is vital for those submitting in this challenging region. This course will help clarify the US regulatory process, giving you a practical insight into FDA requirements and ensuring that you are fully up to date with all the latest developments. The comprehensive programme will cover procedures for submission of INDs, NDAs, ANDAs and 505(b)(2), provide a useful insight into the organisation and structure of the FDA and its review processes, and highlight recent changes. The course will emphasise areas of interest to innovative manufacturers, but will also deal with issues relating to generic and over-the-counter drugs. There will be ample opportunity for discussion with our expert trainer as well as other delegates and a practical workshop session to optimise learning.
