Feedback Mechanism and Sample Feedbacks

FEEDBACK MECHANISM

- Pravara rural college of Pharmacy, Loni, has established different feedback systems where output is returned (Feedback is fed-back) to modify the next action.
- Feedbacks are essential for working and survival of education systems.
- Feedback is importance parameter for performance review of faculty.
- Giving and receiving feedback is a delicate process, there's no doubting its value in helping to identify issues and solve them.

- PRCOP manage feedback in a positive way so that it does what it's intended to do: Help improve and grow our quality.
- Taking the feedbacks is Boosting Our Staff's Confidence and Ability. When done in the right way and with the right intentions, feedback leads to outstanding performance.
- Employees have to know whether they are doing well or not. For them to really hear your thoughts and suggestions on ways to improve, though, that feedback has to be delivered carefully and frequently.
- Instead designing descriptive/ narrative feedbacks formats, we have designed specific formats with grades/marks. It helps to analyze the feedback and to take further actions for negative points.

Flow-chart for the Feedback Mechanism is as below:

A) Nature of Feedback

Following feedbacks are collected from respective stakeholders:

Sr. No	Stakeholder	Nature Of Feedback	Reason For Feedback
		a) Curriculum	To provide suggestions for upgrading the

1.	Students	b) Infrastructure and Facilities	To evaluate the facilities available and to upgrade them as per student requirement.
		c) Teaching learning	To check effective implementation and transaction of curriculum.
2.	Teachers	Curriculum	To provide suggestions for Technical up-gradation of syllabus.
3.	Alumni	Curriculum as well as facilities available	To provide suggestions for Technical up-gradation of syllabus and to review existing facilities.
4.	Employers	Curriculum and skills	To provide suggestions for Technical up-gradation of syllabus and to review skills imparted during course in the alumnus.
5.	Parents	facilities and student support	To evaluate ourselves for the delivery of education as well as facilities and student support.

B) Different Stakeholders for Feedback:

We have set-up mechanism for collection of Feedbacks from different stakeholders, such as

- Students
- Teachers
- Alumni
- Employers
- Parents

Feedbacks are collected on the scale of Excellent, Good, Average and Poor.

a) **Students:**

- ✓ Students are the immediate mirror for teaching and learning process carried out in the college. So, to improve the teaching quality, teacher's performance, College facilities and syllabus inputs, different feedback formats for students are designed.
- ✓ Frequency of feedback depends upon the nature of feedback. Feedbacks related to the infrastructure and syllabi are taken once in year. While feedback related to transaction of syllabus i.e. Teaching-Learning process are taken twice in year.
- ✓ Our brain learns best by being caught in action. If we take feedback from students after completing the semester, they may not represent the issues/problems observed during the last session.
- ✓ Also, if any staff is told that his or her performance is average, after completing the semester, he or she usually can't grasp the changes needed in order to change direction. So for productive results, feedbacks related to teaching are taken twice in every semester, which helps to take suitable corrective measures for improvement in teaching activities.
- ✓ Logic in defining the feedback formats and frequency of feedback is depending on coverage of syllabi and content of the same.

Formats of different student feedbacks collected are as follows:

"We started with a handful of students under a thatched shed called Pravara Public School in 1964. But our story dates back to 1950 when the Pravara Cooperative Sugar Factory enabled prosperity for hitherto debt-ridden farmers. Pravara Rural Education Society took things to the next level by utilizing education for nation building, women empowerment, and integrated rural development. Today, our 42 thousand plus students and over 1 lakh alumni continue to carry forward our values to the world as we create synergy between the global and the local."
