Presenter-  
Mrs. Sumanth R. Vikha

Mrs. Sumanth R. Vikha briefed the members that academic feedback was collected through online and offline mode.

The feedback was collected, analyzed, discussed for appropriate action.

## Feedback Mechanism and Sample Feedbacks

### FEEDBACK MECHANISM

- Panna meal college of Pharmacy, Levi, has established different feedback systems where output is returned (Feedback is fed-back) to modify the next action.
- Feedbacks are essential for working and survival of education systems.
- Feedback is important parameter for performance review of faculty.
- Giving and receiving feedback is a delicate process, there's no doubting its value in helping to identify issues and solve them.

- PECOP manage Feedback in a positive way so that it does what it's intended to do: Help improve and grow our quality.
- Taking the feedback is Boosting Our Staff's Confidence and Ability. When done in the right way and with the right intentions, feedback leads to outstanding performance.
- Employees have to know whether they are doing well or not. For them to really hear your thoughts and suggestions as ways to improve, though, that feedback has to be delivered carefully and frequently.
- Instead designing descriptive/ narrative feedbacks formats, we have designed specific formats with grades/marks. It helps to analyze the feedback and to take further actions for negative points.

**Flow-chart for the Feedback Mechanism is as below:**

Feedbacks are collected on the scale of Excellent, Good, Average and Poor.

- Students:**
  - ✓ Students are the immediate source for teaching and learning process carried out in the college. So, to improve the teaching quality, teacher's performance, College facilities and syllabus inputs, different feedback forms for students are designed.
  - ✓ Frequency of feedback depends upon the nature of feedback. Feedbacks related to the infrastructure and syllabus are taken once in year. While feedback related to transaction of syllabus i.e. Teaching-Learning process are taken twice in year.
  - ✓ Our brain learns best by being caught in action. If we take feedback from students after completing the semester, they may not represent the issues/problems observed during the last semester.
  - ✓ Also, if any staff is told that his or her performance is average, after completing the semester, he or she usually catch grasp the changes needed in order to change direction. So for productive results, feedbacks related to teaching are taken twice in every semester, which helps to take suitable corrective measures for improvement in teaching activities.
  - ✓ Logic in defining the feedback formats and frequency of feedback is depending on coverage of syllabus and content of the same.

Formats of different student feedbacks collected are as follows:
