components are distributed as per requirement. We noted down all information given by Mr. Bhoknal in our notebook.

After that Mr. Bhoknal took us to histopathology lab. Hospital has well organized lab with varieties of different specimen. In this lab examination of various tissues are carried out in order to study manifestations of the disease by biopsy and surgical specimen. Mr. Bhoknal told us that these specimens are stored in frozen section in 10% formalin.

We saw varieties of specimen over there like thyroid gland, pancreas, human specimen, brain, duodenum etc. some testing was performed by various doctors there we saw them and some of them were explained to us by them, we got brief knowledge there.

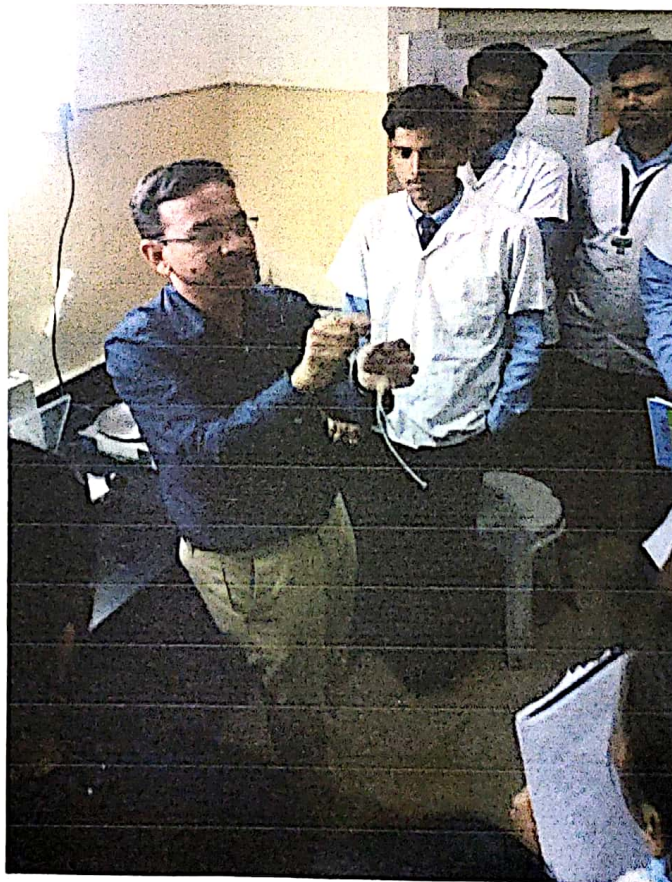

Then we gathered in one hall where rather than blood and histopathology. Sir told us about various cancer disease and other disease of hepatitis, Tb etc. and also there pathogenesis treatment and symptoms. We were totally imbibed the deep knowledge of diseases.

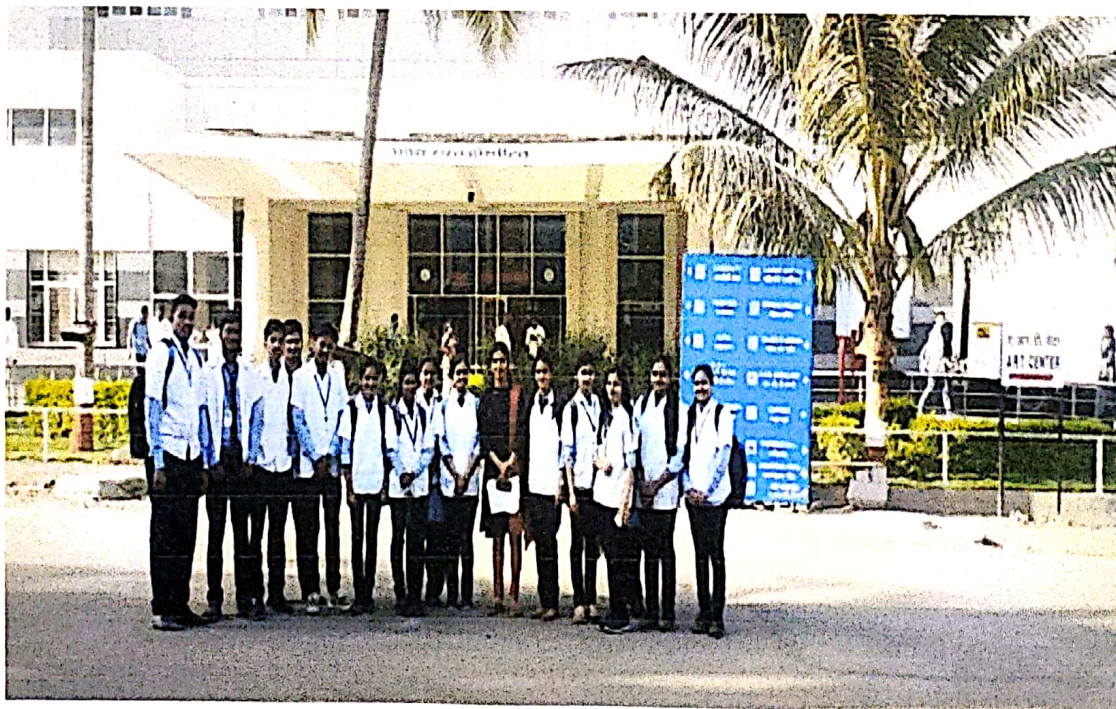

At 3pm all of it was done and we were ready to return back. All students were thankful to college, Prof. Ghogare mam & HOD Prof. Bhawar sir for arranging such good visit as well as thanks to Dr. pergaonkar & Mr. Bhoknal who didn't let any doubts in our mind about blood bank, lab and disease and for giving to us. So at last we seat in bus and reached to our college at 5pm.

Result: Visit to pathology laboratory and blood bank was done.

Subject- Request for permission of visit to blood bank

Respected Sir,

With reference to above cited subject, as per syllabus of SPPU Pune, the students of Second year B.Pharm are supposed to visit blood bank in order to upgrade their knowledge regarding blood donation, storage, transfusion, cross matching etc.

We therefore kindly request you to allow our 62 students with 2 teaching staff to visit blood bank of your hospital. It will help to create awareness of blood donation among students.

Kindly give us convenient date and time. We assure that students will maintain discipline during the visit.

Thanking You,

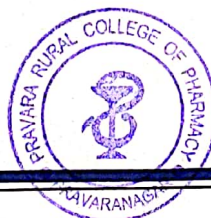

Yours faithfully,

Subject- Thanking letter for permission of industrial visit
Respected Sir,

With reference to above cited subject, We the Principal, staff and students of Pravara Rural College of Pharmacy, Pravaranagar cordially thank you and entire team of Advanced Enzyme Technologies Ltd, for allowing our S.Y. B. Pharm students to visit the industry on Sunday 14.10.2018.

Our students are enlightened with the thorough knowledge of latest technologies used in your organization which will surely help them in their future career. This visit has bridged the gap between pharmacy institute and industry.

We wish to continue this interaction in future too.

Once again thank you very much for your kind cooperation.

Thanking You,

Yours faithfully,

Dr. Priya Rao

Sr. No.	Topics/ Departments
1.	Plant Layout
2.	Department and Equipment's
	A) Safety Department
	B) Production Department
	C) Quality Control Department D) Quality Assurance Department
3.	Marked Products of industry
4.	References

1. Plant Layout:

1) Plant Layout:

In plant layout various types of Departments. In Plant Layout firstly entry exit of the company, reception of the company, QA Dept., QC Dept., Production Dept, Warehouse, Company Canteen, Maintenance Dept. and Influent Plant.

Importance :

Importance 4 An ideal plant layout should provide the optimum relationship among output, floor area & manufacturing process. Flexibility of operation Easy production flow Make economic use of building Promotes effective utilization of manpower Employee's convenience Safety Comfort at work Maximum exposure to natural light & ventilation

Types of Layout:

Types of Layout 5 There are 3 types of plant layout: Manufacturing units Traders Services Centers And Establishment

2. Department and Equipment's:

I visited to production dept. in that I see raw material dispensing, mixing, granulation, compression, coating, semi finish, packing.

Capsule filling

List of Equipments:

Compression Machine: - Fette Compacting 3200i

CAD Press

Capsule Filling Machine:- MG Planeta

ACG Pan 90T

Packing Machine: - UTO Pack

- **Quality Control (Testing):** It's the job of the QC folks to make sure that what comes out of Production actually works. In company that manufactures stuff, they will devise tests that every product (or a sample from a production batch) has to pass before it is shipped. In a software company, QC usually works with the developers to find bugs (although many companies are letting their customers take on the QC task).
- **Shipping:** Big companies and those that deal with big or delicate or expensive or huge numbers of items will have a separate dept devoted to packaging and shipping the stuff quickly and efficiently. Sometimes figuring out the fastest and cheapest way to deliver the stuff becomes very complicated and is called **Logistics**.
- **Customer Support:** Once the product is in the customer's hot little hands, they'll contact Customer Support if they have questions or anything goes wrong. Companies want to spend as little on CS as possible, so they should invest a lot of time in building reliable, robust and easy to understand products. But they can also cut costs by outsourcing CS and putting up online support forums so customers can help each other.

Marketing: It's Marketing's job to understand what customers need and will pay for (these are two different things). This can be a challenge because sometimes the customers themselves don't know. There are two kinds of Marketers: the Listeners and the Talkers. The Listeners try to understand what people want by figuring out what their problems are

and finding out what solutions will work. The Talkers tell people what their problems are and show them how the company can solve them. Both can be successful.

Sales: The Sales dept is the connection to the outside world. The job of Sales is finding people who have problems that the company's products can solve at a price they can afford

3. Marked Products:
