Details of the session:

1. Session First

Inaugural:

The session was inaugurated by Principal Dr. Priya Rao, Student Development officer S.D.Mankar, along with the speaker Mrs. Amruta Shirsagar and all teaching staff, Students from final year B. pharmacy was present for the session. Prof. S.D.Mankar gave introductory speech and Prof.S.D.Mankar gave vote of Thanks. Inaugural function was from 10am to 10.30am.

Session I

Mrs. Amruta Shirsagar started the first session she taught student about importance of Rain water harvesting, collection and storage of rainwater into natural reservoirs or tanks, or the infiltration of surface water into subsurface aquifers (before it is lost as surface runoff).

2. Session Second

Mr. Mr. Abhijit Bhosale started the second session. One method of rainwater harvesting is rooftop harvesting. With rooftop harvesting, most any surface — tiles, metal sheets, plastics, but not grass or palm leaf — can be used to intercept the flow of rainwater and provide a household with high-quality drinking water and year-round storage.

Details of the Event:

- a. The Workshop was informative and with full of knowledge.

Understood the importance of rain water harvesting in the working environment.

- b. The use of rainwater harvesting system provides ideal merits to any community. First and foremost, the collection offers a better and efficient utilisation of energy resource. It is important because potable water is usually not renewable, thus reducing wastage. The systems used for water collection is based on simple techniques that are very easy to maintain. The overall expenses used in setting up harvesting methods are much cheaper compared to other purifying or pumping means. Also, its maintenance is feasible on the economic front as it does not require deep pockets.

ACTIVITY REPORT

Name of the activity: World AIDS Day.

Date: 1/12/2017

AIDS awareness Rally was organized on the occasion of World AIDS day dated 1st December 2017 at Loni village where NSS volunteers participated in Programme. Teaching staff, Nonteaching staff and students of B.Pharm and D. Participated in this event. Students of both college prepared slogans to create awareness amongs society about HIV. Dr. S. A. Nirmal Principal of Pravara Rural College of Pharmacy told in his introductory speech Human immunodeficiency virus infection and acquired immune deficiency syndrome (HIV/AIDS) is a spectrum of conditions caused by infection with the human immunodeficiency virus (HIV). Following initial infection, a person may not notice any symptoms or may experience a brief period of influenza-like illness. Typically, this is followed by a prolonged period with no symptoms. As the infection progresses, it interferes more with the immune system, increasing the risk of developing common infections such as tuberculosis.

The session was fruitful and was attended by 15 staff and 70 students.

ACTIVITY REPORT

Name of the Activity: Swacchata Abhiyan.

Date: 1st October 2015

On the occasion of Gandhi Jayanti NSS unit of our college conducted a campus cleaning programme on 1st October 2015. Students of B.Pharmacy and M.Pharmacy with teaching and Non teaching staff participated in cleaning of college campus, ground area, road and garden under the guidance of Dr. S.A. Nirmal. He told the importance of cleaning, Cleaning plays a vital role in our daily lives. Be it personal hygiene, such as washing our hands before we eat or covering our mouths when we cough, or setting a standard for environmental cleanliness, effective cleaning is our first line of defense against viruses and infectious diseases. While in healthcare environments the practical value of cleaning is widely accepted, in other fields such as education, property management, foodservice and hospitality, it is seen only as a necessary expense. Most building owners and facility managers view cleaning as a cost rather than an investment. As cleaning solution providers, we need to explain to executives, especially those "who hold the purse strings," that maintaining a clean environment can pay for itself many times over, and often in surprising ways.
