DESIGN INNOVATION CENTRE

THE DESIGN INNOVATION CENTRE (DIC)

Introduction : DIC- A link between SPPU Faculty, Spoke centers and Industry Partners

The SPPU faculties are actively working in the research area of chemical, physical, life sciences, social sciences, humanities and art. Because of the teaching and research contribution in the above areas, the university is recognized as the 'University with Potential of Excellence' by the UGC. The SPPU conducts number of courses for post-graduate programme in the area of basic sciences, social sciences, humanities, arts and languages. In addition, the SPPU conducts under-graduate programme in Biotechnology and Bio-informatics. There are number of certificate and diploma courses that are being conducted for under graduate studies. The students are provided with well-established Library, Sports, Hostel, Counseling cell, Reading hall and Health Centre facilities. This expertise along with the spoke centers will be exploited to established prototype development generated out of the research programmes. This will establish a strong link between industries and end-users.

Thus, with the active participation of University faculty and Spoke centers, various innovative ideas will be envisioned and executed leading to the development of more number of prototypes for the sustenance and continuation of DIC activities.

Participation Status:

Design Innovation Centre (DIC) at SPPU has been established since 2015 as a DIC Hub Centre with 3 spoke centres at Vigyan Ashram (Pabal), at Ahmednagar and at Nashik. Sanction of Rs. 10 Crore by MHRD-GOI under the scheme 'National Initiative for setting up of Design Innovation Centres, Open Design School & National Design Innovation Network.

DIC- SPPU Members:

- Prof. (Dr.) Nitin R. Karmalkar (Hon. Vice Chancellor, SPPU)
- Prof. (Dr.) Arvind D. Shaligram (Co-ordinator, DIC- SPPU, Dean, Science & Technology, SPPU)
- Prof. (Dr.) Dilip D. Dhavale (Ex. Coordinator, DIC- SPPU)
- Dr. Pooja J. Doshi (Co-coordinator, DIC- SPPU)
- Dr. Avinash Joshi (CEO, Research Park Foundation, SPPU)
- Prof. (Dr.) M. V. Kulkarni
- Prof. (Dr.) Raymond Duraiswami
- Prof. (Dr.) Sujata Bhargava
- Prof. (Dr.) S. W. Gosavi
- Dr. Mahesh Borge
- Dr. Hemlata Kotkar
- (Appointed Research Staff - 13 and DIC-Office Staff - 03)

THE HUB AND SPOKE CENTERS

Hub Centre: Savitribai Phule Pune University (SPPU)

- Starting Date and month: 1st April, 2016
- Name of the Principal Coordinator: Prof. Arvind D. Shaligram, Coordinator, DIC-SPPU, Dean, Science & Technology Department, SPPU, President-IIC, Savitribai Phule Pune University, Pune
- Contact Email: ads@electronics.unipune.ac.in
- Contact Phone/Mobile: + (91) 9373318687
- Name of the Co-Coordinator: Dr. Pooja J. Doshi

The SPPU is one of the largest universities in Maharashtra. It is spread over three districts namely Pune, Ahmednagar and Nashik with more than 660 affiliated colleges. This gives opportunity to the Savitribai Phule Pune University to act as a 'HUB' with 'SPOKES' at three centers at Ahmednagar, Nashik and Vigyan Ashram at Pabal for establishment of DIC, as mentioned below:

The 'SPOKE' Centers:

1. INDIAN INSTITUTE OF EDUCATION, VIGYAN ASHRAM, PABAL

Starting Month and Year: September 2015

Address - Indian Institute of Education, Vigyan Ashram, Pabal, Dist. Pune - 412403, Maharashtra.

Syllabus

(1) INNOVATIVE APPROACHES TO DRUG DESIGN

NSQF Level: 5

SECTOR: Life Sciences

ELIGIBILITY: Bachelor's degree in Chemical and Life Sciences, or B.Pharm.

FEES: Tuition Fees- Rs 3000/- (Rs 100/- per credit)-30 credits

Laboratory Fees- Rs 2000/- (Rs 2000/- per Semester)

Total Fees- Rs 5000/-

CERTIFICATE COURSE: 6 months (450 hours)

Credits: 30

KEY COMPETENCIES: The CADD Associate is responsible to propose and implement innovative chemo-informatics tools that are used by medicinal chemists and members of the CADD group to help with the design of optimized drug-like compounds. Data mining, analysis and predictive modelling for therapeutic project teams are also part of the job accountabilities

ASSESSMENT: Assessment include continuous assessments which will comprise of following:

- ✓ 20 marks of theory component
- ✓ 20 marks of internal assessments
- ✓ 60 marks of skill assessment conducted by assessors of SSC

Course Structure: The course can be run in any of the 2 semesters in a year.

Background

Currently, the drug discovery is facing severe innovation deficit. Number of new drugs approved has drastically reduced during last decades. Many drugs were withdrawn from market due to safety reasons. Clearly, present approaches to drug design need a fresh look. The 'lock and key' theory in which the drug key is acting on the single target lock was the basis of modern pharmacology. This led to the synthesis of one drug for one target for one disease. The major disadvantage of this approach was the side effects of drugs synthesized in that way. This guided the scientists to explore innovative approaches in drug design with multi targeted as well as multi compound drugs. This has led to a new branch in pharmaceutical science named as 'Network Pharmacology'. The Network pharmacology

utilizes the advancements in computational biology and systems biology to generate networks of interaction of drugs and their molecular targets.

Indian traditional system of medicine Ayurveda practices herbal formulations for thousands of years. But the exact mechanisms of action of these drugs are not explored much. In this scenario, the integration of drug discovery and bioinformatics with network pharmacology approach will give new perspective and larger acceptance to Ayurveda. These innovative approaches can also enrich modern pharmacology with new drug scaffolds, leads and methods for rational formulation design based on traditional knowledge systems like Ayurveda.

Objectives: The objectives of the course are –

- To make students learn the science and art of "Drug Designing"
- To make students learn to design and interpret the results of herbal formulations
- To have hands on experience with the advanced computational tools available for identifying drug-biomolecule interactions.
- To integrate diverse information into discovery knowledge by exploiting the advantages of integration of drug discovery and bioinformatics with network pharmacology approach

The course has been planned to have both theory and computational lab components. Theory modules of 150 hrs duration each will cover the lectures on Basics of Drug action mechanism, theories of drug-receptor interactions, introduction to fundamental concepts behind the molecular modeling software, structure activity relationship of drug & drug like molecules, molecular docking techniques and logic behind the Drug designing.

Structure: This course is designed for the students having Bachelor degree in any science streams like, biology, chemistry, biotechnology, microbiology, pharmacy, who aspire to make a career in the areas of Research and Development of pharmaceutical sciences with an aim to introduce them at an early stage to the modern concept of Drug Designing and the computational tools available. Students who have completed second year of Bachelor degree may be permitted to enroll as an 'add-on' course.

The course will also be suitable for entry level R&D scientists for training them to use computer based methods of research in Pharmaceutical and Agrochemical Industries.

REPORT OF "DIC STUDY TOUR"

Topic: Report of "DIC Study Tour"

Date: 18/03/2019

Venue: PDVVPF's COP, Ahmednagar.

Organized by: Pravara Rural College of Pharmacy, Pravaranagar, A/P-Loni, Tal - Rahata,

Dist. - Ahmednagar

Principal
Pravara Rural College of Pharmacy
Pravaranagar, A/p. Loni- 413 736

Primary Objective of the Event:

1. To guide students regarding various analytical techniques.
2. To give information related to advanced analytical instruments.
3. Handling of sophisticated analytical instruments.

Details of the session:

The session was started with introduction of Dr. R. L. Sawant, Prof. and HOD Department of Pharmaceutical Chemistry, PDVVPF's COP, Ahmednagar. Dr. R. L. Sawant gave detail information about handling of analytical instruments, various analytical techniques and analytical method development. He has also guided students regarding various software required for analytical instruments. Dr. S. B. Dighe gave introduction of speaker and Mr. S D. Magar, given vote of Thanks.

Details of the Event:

- The lecture was informative and with full of knowledge.
- The students understand about Basics of various analytical techniques and method development.
- The speaker has given brief information about analytical instruments.
- There was question answering about related topic.

Subject- Thanking letter for permission of industrial visit

Respected Sir,

With reference to above cited subject, We the Principal, staff and students of Pravara Rural College of Pharmacy, Pravaranaagar cordially thank you and entire team of Advanced Enzyme Technologies Ltd, for allowing our S.Y. B. Pharm students to visit the industry on Sunday 14.10.2018.

Our students are enlightened with the thorough knowledge of latest technologies used in your organization which will surely help them in their future career. This visit has bridged the gap between pharmacy institute and industry.

We wish to continue this interaction in future too.

Once again thank you very much for your kind cooperation.

Thanking You,

Yours faithfully,

Dr. Priya Rao
