

6.3.3: Average number of professional development /administrative training programs organized by the institution for teaching and non teaching staff during the last five years

SUMMARY OF DOCUMENTS

Sr. No	Year	Name of the Document	Page Number (From-To)
Teaching			
1	2018-19	Workshop on Pedagogy techniques	03-10
2	2018-19	Workshop on microwave synthesis	11-16
3	2018-19	A Workshop on Disaster Management	17-31
4	2018-19	Workshop on fire safety	32-43
5	2018-19	A workshop on HPLC and UV	44-50
6	2018-19	One day Workshop on NAAC Accreditation process	51-55
7	2018-19	One day Workshop on NAAC Accreditation process	56-60
8	2018-19	A Workshop on Detoxification	61-66
9	2017-18	Workshop on Novel Drug Delivery system	67-71
10	2017-18	Workshop on leadership development	72-76
11	2017-18	Workshop on ICT Tools	77-81
12	2017-18	Workshop on Neurolinguistic programme	82-87
13	2017-18	Expert talk on Pharma industry	88-91
14	2017-18	Workshop on Opportunities for Pharma professional	92-97
15	2016-17	Workshop on work ethics	98-101
16	2015-16	Workshop on ICT Tools	102-105
17	2014-15	Workshop on instrument handling	106-109
Non-Teaching			
18	2018-19	Workshop on CPCSEA guideline	110-118
19	2018-19	A Workshop on Detoxification	119-124
20	2018-19	Workshop on house keeping	125-130
21	2017-18	Workshop on CPCSEA guideline	131-140
22	2017-18	A Workshop on computer literacy	141-145

REPORT ON

"ONE DAY WORKSHOP ON PEDAGOGICAL TECHNIQUES"

Date: 21/05/2019

Venue: Class Room Pravara Rural College of Pharmacy, Loni.

Organized by
PRAVARA RURAL COLLEGE OF PHARMACY, PRAVARANAGAR
A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR

Principal

Pravara Rural College of Pharmacy
Pravaranagar, A/p. Loni

Page 1 of 6

Details of the session:

The Session was inaugurated by Principal Dr. Priya Rao Madam, along with the speaker Dr. R.B.Laware and all teaching staff. Were present for the session. Mr. S.D. Mankar gave introductory speech and Mrs. K. V. Dhamak gave vote of Thanks. Inaugural function was from 10.00 am to 10.30am.

Details of the Event:

What techniques and strategies to employ and when to use them can mean the difference a student succeeding academically or experiencing academic failure? That is why the workshop was organised at Pravara Rural College of Pharmacy, Loni on 21 September 2019.

The speaker was discussed 31 pedagogical techniques that every teacher should have in their toolkit along with CO-PO Mapping.

1. **Massed Practice:** A learning technique which involves the repetition of specific facts or skills over a concentrated period.
2. **Distributed Practice:** A learning technique which involves the repetition of specific items at intervals over a designated period.
3. **Learning Probes:** Techniques which assist teachers to ascertain whether or not students understand a lesson. Questioning is an example of such techniques.
4. **Juxtapositioning Texts:** A technique that uses multiple texts to shed light on several perspectives on a given topic. Groups of students each read a different text and discuss it. When finished, the students are placed into new groups so that each text is now represented in the new group.
5. **Means-Ends Analysis:** A problem-solving technique in which the learner identifies the goal (ends), the present situation, and the method through which to attain the goal (means) to decrease the perceived gap between the ends and the means.
6. **Rule-Example-Rule:** A technique for teaching concepts in which the teacher presents a rule or definition through examples and then demonstrates how the examples fit the rule.
7. **Keyword Method:** A memory improvement technique which uses images to connect items into pairs.

8. Loci Method: A technique that assists in remembering lists by visualizing the items within familiar locations.

9. Pegword Method: A memorization technique which uses images to connect a list of facts to a familiar group of words or numbers.

10. Initial-Letter Strategies: Learning techniques which use the initial letters of specific items to change the item into a word or phrase that is easier to remember.

11. PQ4R Method: A study technique in which students preview, question, read, reflect, recite, and review a given material or their work.

12. Top-Down Approach: A pedagogical method that encourages student input in their learning and emphasizes authentic learning activities in literacy instruction by including meaningful contexts.

13. Analytic Process: A reading technique designed to help teachers to observe and assess students' engagement with the reading process. Teachers are then able to identify strengths and weaknesses and plan appropriate lessons regardless of the domain, teaching method, or curriculum involved.

14. Morphological Synthesis: A technique used to encourage creative problem solving which extends on attribute transferring. A matrix is created, listing concrete attributes along the x-axis, and the ideas from a second attribute along with the y-axis, yielding a long list of idea combinations.

15. Implementation Charting: An activity in which problem solvers are asked to identify the next steps to implement their creative ideas. This step follows the idea generation stage and the narrowing of ideas to one or more feasible solutions. The process helps participants to view implementation as a viable next step.

16. Sketch and Label Connections: A teaching idea designed to help students express a connection through visual representations. Students read the text and consider a connection that they can make, sketch the connection, and label it (text-self, text-text, or text-world). They must then explain why it is that type of connection. Sketch and label connections can be done before, during, and after reading a text.

17. Semantic Map: A teaching idea designed to engage prior knowledge, introduce content-specific vocabulary, and organize new information about a topic. In order to make a semantic map, the teacher or the student will choose a word. Students will then brainstorm more information about that word, creating a graphic organizer with categories and details. These maps can be used to create summaries.

18. Social Constructivist Process: A learning development theory based on the schema that concludes that learning takes place when prior knowledge is combined with new information.

19. Bookmark Technique: A teaching idea that can help to monitor reading comprehension and make evaluative judgments about the text simultaneously. This technique can be used for in-class assignments and homework assignments using narrative and expository texts.

20. Gallery Images: A teaching idea designed to help students make visualizations during a reading assignment and gives them a better way to share their mental images. Gallery images are usually used after students are finished reading an informational text.

21. Guided Imagery: A teaching idea that encourages readers to tap into their prior knowledge, create visualizations, solve problems, and use their imaginations. This technique can be utilized with narrative or informational texts that elicit a mental image.

22. INSERT Method: A teaching idea designed to encourage students to become engaged readers by inserting different symbols into the text. This gives students an opportunity to reflect on what they know and make decisions about the different ideas presented in the text.

23. "I Wonder..." Statements: A teaching idea created to help encourage students to ask more questions and to provide a model for active thinking while reading a given text. The statements can be used with any type of text either before, during, or after the reading. The "I wonder" statements can be made orally, visually, or in writing.

24. KWL/KWLS: A teaching idea that engages a student's prior knowledge about a topic by setting up the purpose for reading and confirming the original understanding of the topic. This is also a great time to revise or expand the original understanding. A traditional KWL chart requires readers to ask what they know, what they want to know, and what they have learned. A KWLS chart adds one additional column for students to state anything they still want to know.

25. Monitoring/Clarifying: A reading comprehension strategy where the reader constantly asks whether the text makes sense to them and then implementing strategic processes to make the text clearer.

26. Paired Questioning: A teaching idea where students take turns making questions and responding to those questions about a text.

27. Photographs of the Mind: A teaching idea designed to help students share their mental images that they create while reading a text. They must stop at four designated points to sketch their mental images.

28. Question-Answer Relationships: A teaching idea proposed by Raphael that assists students with self-questioning. There are two basic information sources: prior knowledge and the text they are reading. Within each of the information sources, students will find question-answer relationships that help them to develop their self-questioning abilities and focus on the information sources necessary to answer the question. This technique can be used when reading both narrative and expository text.

29. ReQuest: A teaching technique created by Manzo (1969) where students participate in an active discussion of a text. Students will create questions at multiple levels based on modeling received from the teacher. Both students and teachers will answer the questions.

30. Thick and Thin Questions: A teaching idea that encourages students to ask questions about a given text and then discern what type of questions they are asking. The questions might be memory-level (thin) or evaluative (thick).

31. Patterned Partner Reading: A teaching idea that provides structure for strategic reading while working interactively with a partner. Two students will take turns reading the text or a section of the text together.

Then after presentation the question answer session was carried out, then some of the participants give a feedback talk on workshop finally the workshop was conclude by valedictory function and vande mataram geet.

REPORT ON

“TRAINING ON MICROWAVE SYNTHESIZER”

Topic: Training on Microwave synthesizer.

Date: 7/03/2019

Venue: Pharmaceutical chemistry Lab (PG)

Organized by: Pravara Rural College of Pharmacy Loni

Details of the Event:

A training programme on microwave synthesizer was arranged for all teaching staff. Prof. Sagar Magar given the importance of microwave process and how it is beneficial over conventional. Microwave irradiation provides an alternative to the conventional methods, for heating or introducing energy into the system. It utilizes the ability of mobile electric charges present in liquid or conducting ions in solid to transform electromagnetic energy into heat. Microwave radiations are electromagnetic waves.

MECHANISM OF MICROWAVE HEATING:

All the materials are not susceptible to microwave heating as response of various materials to microwave radiation is diverse. Based on their response to microwaves, materials can be broadly classified as follows:

1. Materials that are transparent to microwaves, e.g. sulphur
2. Materials that reflect microwaves, e.g. copper
3. Materials that absorb microwaves

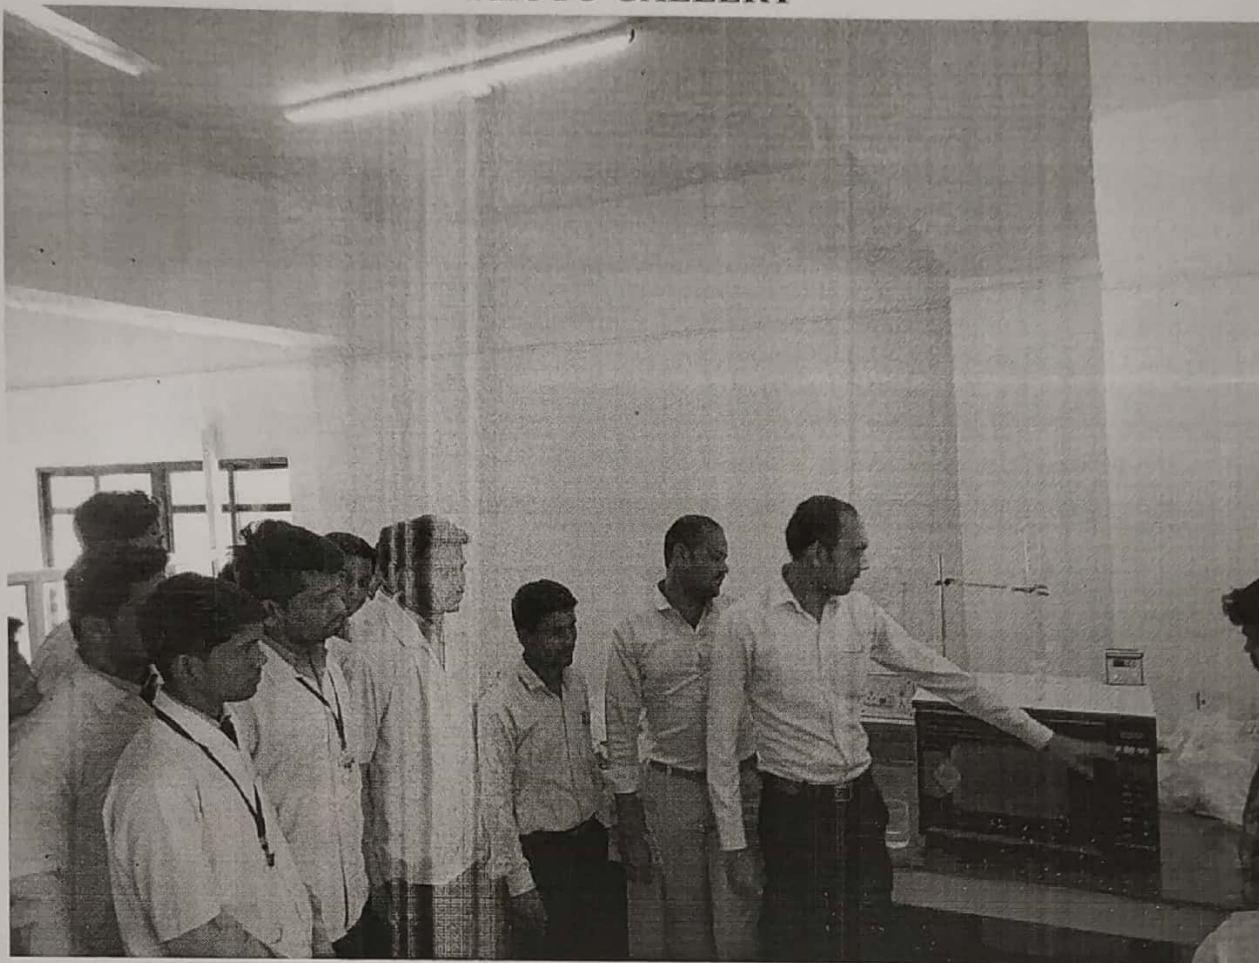

e.g. water Microwave absorbing materials are of utmost important for microwave chemistry and three main different mechanisms are involved for their heating namely: Dipolar polarization, Conduction mechanism and Interfacial polarization.

REPORT OF TRAINING ON DISASTER MANAGEMENT

ORGANIZED ON

27TH FEB 2019 (WEDNESDAY), 10:00 AM ONWARDS

:ORGANIZED BY:

PRAVARA RURAL COLLEGE OF PHARMACY,
PRAVARANAGAR
A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR
IN ASSOCIATION WITH
AHMEDNAGAR AUTO AND ENGG. ASSOCIATION ,
AHMEDNAGAR

: SPONSORED BY:

STUDENT DEVELOPMENT DEPARTMENT
SPPU,PUNE

Prinya
Principal

Pravara Rural College of Pharmacy
Pravar Nagar, A/p. Loni- 413 736

Primary Objective of the Event:

- To become familiar with impacts of disaster
- To become proficient to overcome incidences of disaster

Details of the session:

1. Inaugural:

The session was inaugurated by Mr. Abhijit Kulkarni and Mr. Vaibhav Khandare (Ahmednagar Auto and Engg. Association), Principal Dr. Priya Rao madam, Prof.S. D. Mankar, Officer Student development along with the students, teaching staff. Students from Second to final year B. pharmacy were present for the session. Dr. Suhas Siddheshwar gave introductory speech followed by the the felicitation of guest.

Dr. Priya Rao madam then introduced the guests and speaker. Session was started at 10.00 am by the speaker and trainer Mr. Abhijit Kulkarni and Mr. Vaibhav Khandare with the power point presentation and the practical information of Types of Disasters ,Disaster Management, Earlier Concept,Present Concept, Disaster Planning, Disaster Prevention, Preparedness, Disaster Response. Participants asked many questions and cleared there doubts in-between the session

2.After lunch the event was so interesting because of demonstration. The mock drill generated on ground open space and the trainer practically showed and trained the students, teaching staff how to gather at assembly point at the

time of any disaster and how to do head count ,precautions to be taken in critical conditions etc.

3.The session was end up with Valedictory function at 3:30 by thanking the trainers.

Details of the Event:

- The lecture was informative and with full of knowledge.
- The participated students and teaching gained knowledge of Types of Disasters , Disaster Management, Earlier Concept, Present Concept, Disaster Planning, Disaster Prevention, Preparedness, Disaster Response
- The participants were trained to the safety precautions in various disasters.
- The participants asked questions and cleared their doubts.

Metrics:

Total no of Participants : 80

Number of students: 67 (Final yr – 39, Third yr – 18, Second yr - 10)

Number of teaching staff: 13

REPORT OF

FIRE SAFETY TRAINING PROGRAM

ORGANIZED ON

04TH JANUARY 2019 (FRI) ,10:30 AM ONWARDS

:ORGANIZED BY:

PRAVARA RURAL COLLEGE OF PHARMACY,
PRAVARANAGAR

A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR

IN ASSOCIATION WITH

AHMEDNAGAR AUTO AND ENGG. ASSOCIATION ,
AHMEDNAGAR

Principa
Principal

Pravara Rural College of Pharmacy
Pravaranagar, A/p. Loni- 413 736

Primary Objective of the Event:

1. To become familiar with application of Personal Protection equipments and fire protective equipments.
2. To become proficient to overcome fire incidences.

Details of the session:

1. Inaugural:

The session was inaugurated by Dr.Prashant Musmade (Sr.Manager Wockhardt Aurangabad) and Mr.Abhijit Kulkarni and Vaibhav Khandare (Ahmednagar Auto and Engg. Association) , Principal Dr. Priya Rao madam along with the students, teaching & non-teaching staff. Students from first to final year B. pharmacy were present for the session. Dr.Suhas Siddheshwar gave introductory speech followed by the Pratima pujan of Late Padmabhushan Dr. Balasaheb Vikhe Patil.

Dr.Priya Rao madam then introduced the guests and speaker .

Session was started at 10.30 am by the speaker and trainer Mr.Abhijit Kulkarni and Vaibhav Khandare with the power point presentation and the practical information of various fire extinguishers and the practical techniques to overcome fire incidences and how to help and rescue the affected and injured ones. Participants asked many questions and cleared there doubts in-between the session.

2.After lunch the event was so interesting because of demonstration. The fire were generated on ground open space and the trainer practically showed and trained the students, teaching and non-teaching staff to use fire extinguisher and to control the fire.

3.The session was end up with Valedictory function by 3:30 by thanking the trainers

Details of the Event:

- The lecture was informative and with full of knowledge.
- The students ,teaching and non teaching staff gained knowledge about the various fire extinguishers and how and where to use.
- The participants were trained to overcome fire incidences.
- The participants asked questions and cleared their doubts.

Metrics:

Total no of Participants : 60

Number of students: 40 (Each class 10)

Number of teaching staff: 10

Number of Non-teaching staff: 10

Number of speakers/trainer :02

Number of guests: 01

REPORT ON

“HANDS ON TRAINING ON HPLC AND UV SPECTROPHOTOMETER”

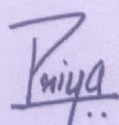

Topic: Hands on training on HPLC and UV spectrophotometer.

Date: 23.10.2018 to 27.10.2018

Venue: Sophisticated Instrument Lab, Pravara Rural College of Pharmacy, Loni

Organized by: Pravara Rural College of Pharmacy, Loni

PRINCIPAL
Pravara Rural College of Pharmacy
Pravaranagar, A/p.Loni-413736

Details of the session:

The session was inaugurated by Hon. Secretary Shri. Bharat Ghogare sir, Principal Dr. Priya Rao along with Dr. S.N. Hiremath sir, Principal Govt. Diploma college of Pharmacy, Loni. All teaching staff were present for the session. Prof. H. S. Bhawar gave introductory speech. Dr. Priya Rao mam welcome all.

Details of the Event:

Session 1

First session was started at 9.30 am. Dr. S.N. Hiremath sir gave focus on basic concept of HPLC and Mr. Ganesh Shinde talk on basics of UV. Session was from 9.30 am to 11.30am on 23.10.2018 by Dr. S.N. Hiremath sir and from 2.00 to 4.00 by Mr. Ganesh Shinde sir. Session was very informative to all. Prof. Dr. Dighe S.B. gave vote of thanks.

Session 2

Mr. Ganesh Shinde gave training on handling of UV Spectrophotometer from 10.00 to 1.00 and explain various single component and multicomponent analysis methods using UV Spectrophotometer on 24.10.2018 from 2.00 to 5.00 pm

Session 3

Prof. H. S. Bhawar gave demonstration on Handling of HPLC on 25.10.2018 and focus on quantitative analysis methods.

Session 4

Dr. N.S. Dighe guide on various quantitative analysis methods and new technological update in analysis on 26.10.2018 from 10.00 to 12.30pm. Mrs. Bhawar gave training to use of HPLC to staff members explain about precaution to be taken during handling of HPLC.

Session 5

On 27.10.2018 staff member used sophisticated instrument.

- The lecture and training was informative and with full of knowledge.
- The staff gain knowledge about calibration parameter, quantitative methods for analysis, system suitability parameter and precautions during handling of sophisticated instrument like UV Spectrophotometer and HPLC.
- Session was interactive.

A
REPORT OF
WORKSHOP ON DETOXIFICATION
ORGANIZED ON
11, JULY 2018 TO 15, JULY 2018

ORGANIZED BY:
PRAVARA RURAL COLLEGE OF PHARMACY, PRAVARANAGAR
A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR

Principal

Pravara Rural College of Pharmacy
Pravaranagar, A/p. Loni- 413 736

❖ **Primary Objective of the Programme:**

- The basic goal of detoxification is to eliminate all harmful substances, narcotics, and toxins from a drug abusers body.
- Even so, because withdrawal symptoms can be life-threatening, undergoing detox at a drug rehab or treatment center is the safest approach.
- Before beginning the detoxification process, it is important for drug users to comprehend potential symptoms. Due to powerful cravings, some persons are not able to complete detox.
- To help patients cope with the physical effects of detox, some treatment centers offer ongoing counseling during detoxification. This is purposed to help ease any distress or discomfort. In extreme cases, medical professionals may administer a drug to lessen distress.
- While detox is very unpleasant for the patient, and potentially life-threatening, the entire process is necessary. Without fully cleansing the body, narcotic residue could remain in the blood stream.
- Even though withdrawal occurs suddenly with rapid detox, patients do not feel pain, and will only experience slight withdrawal symptoms.

❖ **Details of the Event:**

Dr. Priya Rao and Dr. Ravindra Laware give detail idea and give their benefits. All the staff brought fruits and grains which has been cultivated in his/her own farm. Remaining was brought the fruits and grains from the market. During detox days all the participated teaching and non-teaching staff were had fast. All the staff had taken their lunch together at 1:00 pm in the form of Fruts and grains.

❖ **Metrics:**

Number of staff: Teaching: 12

Nonteaching Staff: 04

Pravaranagar, A/p. Loni- 413736

**REPORT OF
WORKSHOP ON
NEURO-LINGUISTIC PROGRAMMING (NLP)**

**ORGANIZED ON
11, SEPTEMBER 2017 TO 15, SEPTEMBER 2017**

**ORGANIZED BY:
PRAVARA RURAL COLLEGE OF PHARMACY,
PRAVARANAGAR
A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR**

Principal
Pravara Rural College of Pharmacy
Pravaranagar, A/p. Loni- 413 736

Primary Objective of the Event:

NLP has emerged as one of the most powerful methodologies for change and achievement over the last few decades. Neuro-linguistic programming (NLP) is a pseudoscientific approach to communication, personal development, and psychotherapy created by Richard Bandler and John Grinder in California, United States, in the 1970s. NLP's creators claim there is a connection between neurological processes (neuro-), language (linguistic) and behavioral patterns learned through experience (programming), and that these can be changed to achieve specific goals in life. Bandler and Grinder also claim that NLP methodology can "model" the skills of exceptional people, allowing anyone to acquire those skills. They claim as well that, often in a single session, NLP can treat problems such as phobias, depression, tic disorders, psychosomatic illnesses, near-sightedness, allergy, common cold, and learning disorders.

Details of the session:

Day 1:

The session was inaugurated by Principal Dr. Sunil Nirmal along with the speaker Sagar Vishwas, Founder and CEO MyGrowthZone and teaching staff. Prof. S. R. Thange gave introductory speech.

The speakers give detail session over, history and conception.

Day 2:

The speakers give detail session over, **main components and core concept of NLP.**

Day 3:

Interactive Session: The speakers had discussed techniques or set of practices.

Day 4:

The speakers give detail session over, **Applications of NLP.**

Day 5:

The Speaker gives idea about scientific criticism and intellectual property disputes.

ACTIVITY REPORT

Name of the activity: Workshop on "Opportunities for Pharma Professionals"

Date: 10 th September, 2016 (2nd Saturday).

Venue: Seminar Hall, APJ Kalam Building, PVP College

The Workshop on "Opportunities for Pharma Professionals" was organized by PRCOP, Loni. The first lecture was delivered by Mr. Gujarani, The second session was delivered by Dr. Priya Rao and The third session was delivered by Dr. S.A. Nirmal. All the speakers gave an insight about the various opportunities for Pharma professionals in various field and the preparation and criteria for the same. The sessions were fruitful and informative and were attended by 17 staff.

ACTIVITY REPORT

Name of the activity: Hands on training on UV Vis spectrophotometer and IR Spectrophotometer

Date: 19.01.2015 to 23.01.2015

Training on handling of UV Vis Spectrophotometer and IR Spectrophotometer was held from 19.01.2015 to 23.01.2015 for the teaching staff.

On 19.1.2015 Mrs. Bhawar H.S. explained basics of UV Vis spectroscopy. On 20.1.2015 single component analysis methods using UV spectrophotometer was carried out.

On 21.1.2015, Prof. N.S. Dighe sir guided the teaching staff regarding basic principle involved in IR Spectrophotometer and on 22.1.2015 Prof. N.S. Dighe sir demonstrated how to operate and care should take during handling of IR Spectrophotometer and use of IR in qualitative analysis. On 23.1.2015 different UV methods for multicomponent analysis along with IR spectra interpretations was performed.

The session was fruitful and was attended by 9 teaching staff members.

**"CPCSEA & ETHICAL GUIDELINE RELATED TO
ANIMALS"**

Date: 11/01/2019

Venue: Animal House of Pravara Rural College of Pharmacy, Loni

Organized by:

Dr. Dighe Santosh B., CPCSEA Nominee, Govt. of India, New Delhi
Associate Professor, Department of Pharmacology
Pravara Rural College of Pharmacy, Loni

Details of the session:

The students of UG, PG, & Staff of Pravara Rural College of Pharmacy, Loni has given introductory session and visit of animal house facility

During the visit the speaker has given brief introduction about SOP of the Animal house facility to all

Details of the Event:

The motto of Prevention of Cruelty to Animals (PCA) Act 1960 as amended in 1982, is to prevent infliction of unnecessary pain or suffering on animals. The Central Government as enumerated under PCA Act 1960 has constituted a Committee for the Purpose of Control and Supervision of Experiments on Animals (CPCSEA) which is duty bound to take all such measures as may be necessary to ensure that animals are not subjected to unnecessary pain or suffering before, during or after the performance of experiments on them. For this purpose, the Government has made "Breeding of and Experiments on Animals (Control and Supervision) Rules, 1998" as amended during 2001 and 2006, to regulate the experimentation on animals.

The objective of this SOP is to contribute to the effective functioning of the Institutional Animals Ethics Committee (IAEC) so that a quality and consistent ethical review mechanism for research on animals is put in place for all proposals dealt by the Committee as prescribed by the CPCSEA under PCA Act 1960 and Breeding of and Experimentation (Control and Supervision) Rules 1998, as amended in 2001 and 2006.

IAEC has been designed to secure the following objectives:

(a) Every experiment shall be performed by or under the supervision of a person duly qualified in that behalf, that is, Degree holders in Veterinary Science or Medicine or Laboratory Animal

Science of a University or an Institution recognised by the Government for the purpose and under the responsibility of the person performing the experiment;

(b) That experiments are performed with due care and humanity and as far as possible experiments involving operations are performed under the influence of some anaesthetic of sufficient power to prevent the animals from feeling pain;

(c) That animals who, in the course of experiments under the influence of anaesthetics, are so injured that their recovery would involve serious suffering, are ordinarily medically allowed to death while still under influence of anaesthetic;

(d) That experiments on animals are avoided wherever it is possible to do so.

(e) That experiments on larger animals are avoided when it is possible to achieve the same results by experiments on small laboratory animals like guinea-pigs, rabbits, mice, rats etc;

(f) That, as far as possible, experiments are not performed merely for the purpose of acquiring manual skill;

(g) That animals intended for the performance of experiments are properly looked after before, during and after experiments;

(h) That suitable records are maintained with respect to experiments performed on animals

A
REPORT OF
WORKSHOP ON DETOXIFICATION
ORGANIZED ON
11, JULY 2018 TO 15, JULY 2018

ORGANIZED BY:
PRAVARA RURAL COLLEGE OF PHARMACY, PRAVARANAGAR
A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR

Principal

Pravara Rural College of Pharmacy
Pravaranagar, A/p. Loni- 413 736

❖ **Primary Objective of the Programme:**

- The basic goal of detoxification is to eliminate all harmful substances, narcotics, and toxins from a drug abusers body.
- Even so, because withdrawal symptoms can be life-threatening, undergoing detox at a drug rehab or treatment center is the safest approach.
- Before beginning the detoxification process, it is important for drug users to comprehend potential symptoms. Due to powerful cravings, some persons are not able to complete detox.
- To help patients cope with the physical effects of detox, some treatment centers offer ongoing counseling during detoxification. This is purposed to help ease any distress or discomfort. In extreme cases, medical professionals may administer a drug to lessen distress.
- While detox is very unpleasant for the patient, and potentially life-threatening, the entire process is necessary. Without fully cleansing the body, narcotic residue could remain in the blood stream.
- Even though withdrawal occurs suddenly with rapid detox, patients do not feel pain, and will only experience slight withdrawal symptoms.

❖ **Details of the Event:**

Dr. Priya Rao and Dr. Ravindra Laware give detail idea and give their benefits. All the staff brought fruits and grains which has been cultivated in his/her own farm. Remaining was brought the fruits and grains from the market. During detox days all the participated teaching and non-teaching staff were had fast. All the staff had taken their lunch together at 1:00 pm in the form of Fruts and grains.

❖ **Metrics:**

Number of staff: Teaching: 12

Nonteaching Staff: 04

REPORT
ON
"WORKSHOP ON HOUSEKEEPING"

DATE: 11/08/2018

TIME: 10.30 AM

NAME OF SPEAKER
MRS. ANUPAMA DESHMUKH

ORGANIZED BY:
PRAVARA RURAL COLLEGE OF PHARMACY, PRAVARANAGAR
A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR

Details of the session:

Training to housekeeping personnel in order for them to perform their duties properly and safely. Conduct follow-up inspections of work areas in conjunction with area housekeeping supervisors to see if any problems exist, especially in care/safety of equipment and proper use of chemicals/supplies. To assist the College Housekeeper in helping to ensure that the highest possible standard of housekeeping is achieved in designated College buildings within the allocated budget.

Details of the Event:

Mr. B. B. Inamdar explained staff about their duties

- Clean student class rooms, communal areas, Fellows' rooms and guest rooms according to the schedule provided.
- Notify the Housekeeper of any repairs required to broken furniture and fixings.
- Check for and report any carpet/curtain cleaning or damage repair requirements.
- Report immediately, and before leaving the College, any gas, electricity, plumbing or carpentry maintenance requirements.
- Undertake any other related duties that arise from the nature and character of the post.
- Perform other related duties, as assigned.
- Assist in any special campus-wide training project, as requested.
- Work in small groups or individually with special needs personnel to insure their proper understanding and good work habits.

Outcomes of the event:

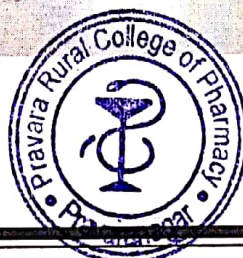

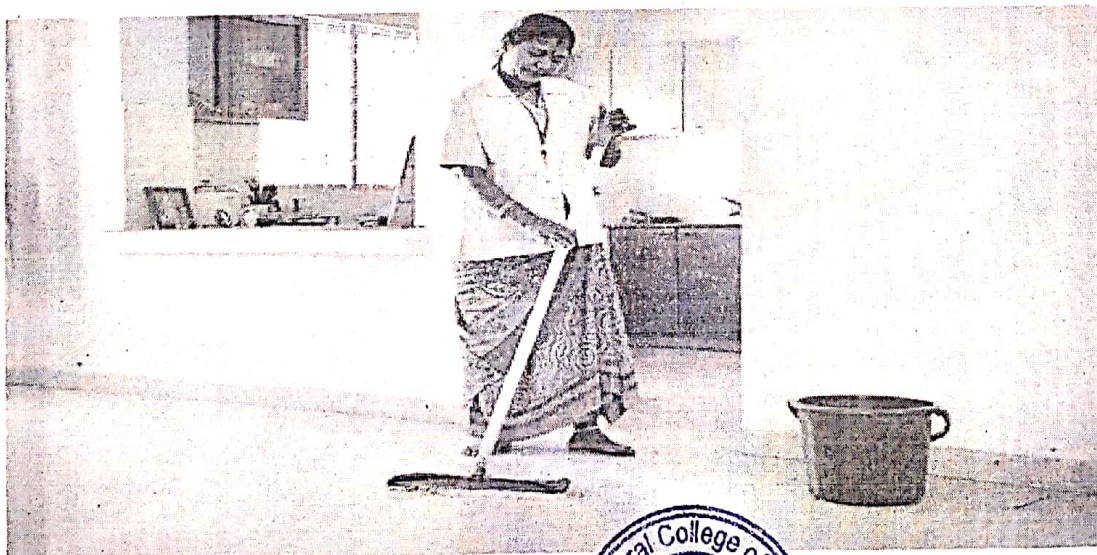

College starts to provide training to different staff as follows:

- Provide on-the-job training to new and continuing employees through initial and refresher classroom instruction in specific housekeeping procedures including proper mixing of chemicals, applicable policies/procedures, and use of equipment and safety practices.
- Conduct follow-up inspections of work areas in conjunction with area housekeeping supervisors to see if any problems exist, especially in care/safety of equipment and proper use of chemicals/supplies.
- Recommend, receive and test new products/equipment from vendors to evaluate their cost effectiveness, suitability and ease of use
- Maintain accurate records/files on employees trained, MSDS data, products and equipment.

Metrics:

Number of staff: Nonteaching: 10

REPORT OF
ONE DAY WORKSHOP ON
"AN OVERVIEW OF CPCSEA GUIDELINE"

Organized on

Date: 30 June 2017

Time: 11.00 a.m.

Name of Speaker

Dr. Anil T. Pawar, CPCSEA, Nominee

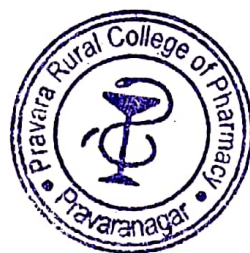

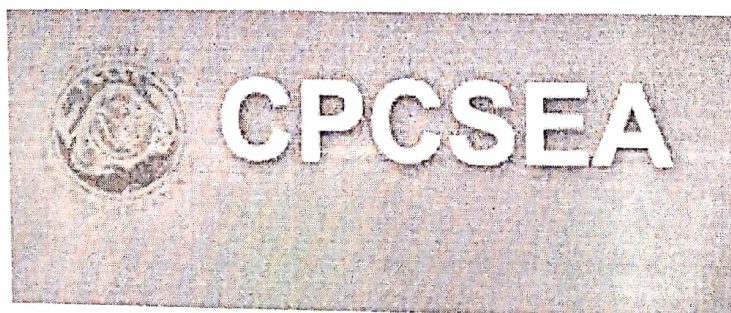

MAEER' S, Maharashtra Institute of Pharmacy, Pune

ORGANIZED BY:

DEPARTMENT OF PHARMACOLOGY

PRAVARA RURAL COLLEGE OF PHARMACY, PRAVARANAGAR

A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR

Primary Objective of the Event:

1. To give introduction about new guideline of CPCSEA
2. All scientists working with laboratory animals must have a deep ethical consideration for the animals they are dealing with.
3. From the ethical point of view, it is important that such considerations are taken care at the individual level, at institutional level and finally at the national level.
4. Interaction amongst people working in animal house should be organised once in a while to discuss ethical issues favouring wellbeing of animals.

Details of the session:

1. Inaugural:

The session was inaugurated by Principal Dr. S. A. Nirmal along with the speaker Mr. Anil Pawar and all teaching staff. The students of Third year B. Pharmacy and M Pharmacy were present for the session. Dr. Dighe Santosh B gave introductory speech and Dr. Bhawar S. B. gave vote of thanks.

2. About the Session

Speake explained in details about Housing, feeding, ventilation, lighting, sanitation and routine management practices for such animals are similar to those for the other animals of the species as given in guidelines.

However he also explained that special care has to be taken with transgenic/gene knockout animals where the animals can become susceptible

to diseases where special conditions of maintenance are required due to the altered metabolic activities. The transgenic and knockout animals carry additional genes or lack genes compared to the wild population. To avoid the spread of the genes in wild population, care should be taken to ensure that these are not inadvertently released in the wild to prevent cross breeding with other animals. The transgenic and knockout animals should be maintained in clean room environment or in animal isolators.

3. Valedictory:

Dr. Bhawar S. B. has given vote of thanks for the session. There was good interaction between the speaker and the students.

Pravara Rural College of Pharmacy
Pravaranagar, A/p.Loni-413736

REPORT OF

"A WORKSHOP ON COMPUTER LITERACY"

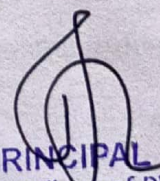

ORGANIZED ON

3RD OCT. 2017 TO 7 OCT. 2017 AT 10.00 A.M. TO 4.00 PM

ORGANIZED BY:

PRAVARA RURAL COLLEGE OF PHARMACY,
PRAVARANAGAR
A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR

PRINCIPAL
Pravara Rural College of Pharmacy
Pravaranagar, A/p.Loni-413736

Primary Objective of the Event:

There is a constant need for the non-teaching staff to keep upgrading their skills. So training regarding the basic computer is provided to the non-teaching staff. Microsoft word, excel and PowerPoint and use of internet.

Details of the session:

Inaugural:

The session was inaugurated by Principal Dr. S. A. Nirmal sir along with the speakers Mr. D.M.Mhase sir and all non-teaching staff. Principal Dr. S. A. Nirmal sir gave introductory speech regarding need to conduct of workshop.

Mr. D.M.Mhase sir explain basics of computer along with new update in MS office on 3.10.17 and 4.10.2017 along with practical demonstration. From 10.00 to 12.30 and from 2.00 to 4.00.

On third day 5.10.2017 Mr. D.M. Mhase Sir explain about use and operating and new update in operating of Excel. On 6.10.2017 sir explain about power point presentation preparation and how to use internet facility, how to mail etc. And on last day 7.10.2017 sir give small task related to topic covered.

Details of the Event:

- The lecture and practical was informative and with full of knowledge.
- The nonteaching staff gain knowledge able to make the use of e-communication for their assigned work
- Event help to increase Paperless work and fast communication.

Metrics:

Number of nonteaching staff: 10

REPORT OF
WORKSHOP ON
WATER AND ELECTRICITY MANAGEMENT
ORGANIZED ON
24 JULY 2017 TO 28 JULY 2017

ORGANIZED BY:
PRAVARA RURAL COLLEGE OF PHARMACY,
PRAVARANAGAR
A/P-LONI, TAL-RAHATA, DIST-AHMEDNAGAR

Principal
Pravara Rural College of Pharmacy
Pravaranagar, A/p. Loni- 413 736

Primary Objective of the Event:

1. **Electricity Management:** Conserving electricity serves the double purpose of helping stop global warming and saving a lot of money over time. Take a look around your home and office: any appliance that operates on electricity can be made more energy efficient. Insulating your home and changing your daily habits are also effective ways to reduce the amount of electricity you use.
2. **Water Management:** Water Management is the activity of planning, developing, distributing and optimum use of water resources under defined water policies and regulations. It includes: management of water treatment of drinking water.

Details of the session:

Day 1:

The session was inaugurated by Principal Dr. Sunil Nirmal along with the speaker Mr. Vishal Tambe, Mr. Sudarshan Kakad and all non-teaching staff. Prof. S. R. Thange gave introductory speech.

The speakers give detail session over, **Turn off the lights:** This is the simplest, most common way to save electricity, and it really works. Start paying attention to how many lights are on in your house at a given time. Be mindful of how many lights you really need to be using at once. When you leave a room, make a habit of turning off the lights, every single time.

Day 2:

The speakers give detail session over, **Unplug any appliances that aren't in use:**

Power down your computer and unplug it at the end of the day. Computers use a lot of energy, and when they stay plugged in you're wasting both energy and money.

Change your bulbs: Replacing regular incandescent light bulbs with compact fluorescent (CFL) or LED bulbs is a big energy saver. Incandescent bulbs release 98% of their consumed energy through heat, while CFL and LED bulbs are much more energy efficient and last several times longer.

Day 3:

Interactive Session: The speakers had discussed the benefits of Electricity Management with all non-teaching staff.

Day 4:

The speakers give detail session over, **Water resources.**

Day 5:

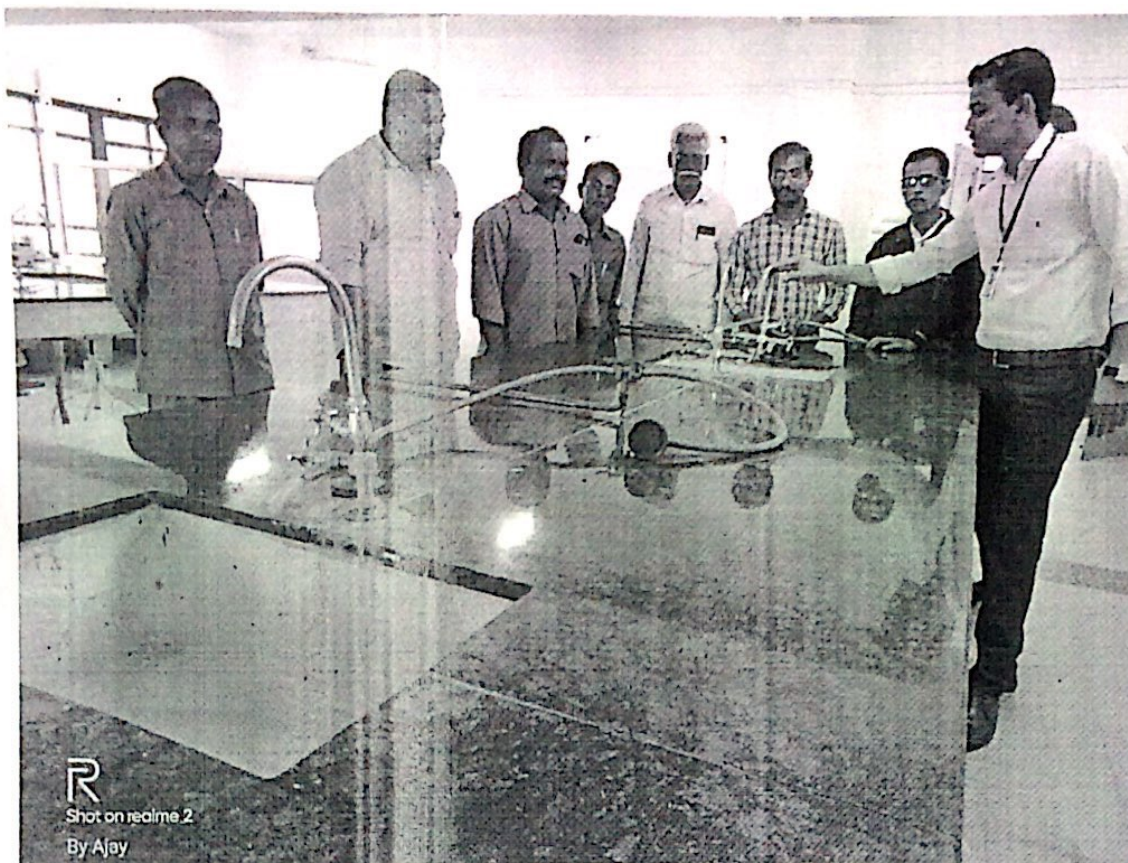

The Speaker gives idea about Water management. And give interactive session with non-teaching.

Metrics:

Number of teaching & Nonteaching staff: 18

ACTIVITY REPORT

Name of the activity: Fire Safety and Disaster Management.

Date: 30/01/2017

An awareness workshop on Fire Safety and Disaster Management was held on 30/01/2017. The resource person was Mr. Vaibhav Khandare. He gave an insight into the practical information of various fire extinguishers and the practical techniques to overcome fire incidences and how to help and rescue the affected and injured ones.

After lunch the event was so interesting because of demonstration. The mock drill generated on ground open space and the trainer practically showed and trained the students, teaching staff how to gather at assembly point at the time of any disaster and how to do head count, precautions to be taken in critical conditions etc.

The session was fruitful and was attended by 10 staff.

ACTIVITY REPORT

Name of the activity: "A Workshop on computer literacy"

Date: 7.07.2014 to 11.7.2014

Dr. G.S. Asane sir welcome all the members and explain need for conducting workshop on computer literacy for nonteaching staff as there is a constant need for the non-teaching staff to keep upgrading their skills. So training regarding the basic computer is provided to the non-teaching staff. Microsoft word, excel and PowerPoint. Mr. D.M. Mhase Sir was the resource person for workshop.

On 7.07.2014 and 8.7.2014 Mr. D.M. Mhase Sir explain basics of computer as hardware and software information. From 10.00 to 12.30 and from 2.00 to 4.00 practically demonstration and handling of computer basic keys and Microsoft MS 2007

On third day 9.7.2014 Mr. D.M. Mhase Sir explain about use and operating of Excel.

On 10.7.2014 sir explain about power point presentation preparation. And on last day 11.7.2014 sir give small task as to prepare Microsoft word document, excel sheet, to prepare small PowerPoint presentations.

Outcomes of the event:

Due to computer training to the non-teaching staff, they are able to make the Microsoft word document, excel sheet for their assigned work. Activity built confidence and motivation among nonteaching staff.

The session was fruitful and was attended by 9 teaching staff members.

: About Institute:

The institution is run by Pravara Rural Education Society, very popular for its commitment to upliftment of Rural mass through education. Pravara Rural Education Society was established in 1964 by Late Padmashri Dr. Vitthalrao Vikhe Patil, the pioneer of Sugar Co-operative movement. The Society has reached sky height under the able guidance of Late. Padmabhushan Dr. Balasaheb Vikhe Patil. Pravara Rural Education Society runs 125 educational units providing quality education from Kindergarten to Doctoral studies in the field of Pharmacy, Engineering, Science, Arts Commerce, Architecture, Polytechnic, Agricultural biotechnology, Agricultural & dairy sciences, and schools for higher & higher secondary education etc. Almost 41500 students from various states of India and culture are studying at Pravara complex.

Pravara Rural College of Pharmacy has its inception in 1987 when Bachelor of Pharmacy (B. Pharm) was started under University of Pune. The College offers post graduate courses (M. Pharm) in Pharmacognosy, Pharm Chemistry and Quality Assurance Techniques. The college has celebrated its silver jubilee year in 2011. It is one of the oldest pharmacy colleges in the University of Pune. Today it has marked its name in the world by continued research activities. It is imparting quality education in pharmacy to fulfil the need of Pharma industries and community.

: About Workshop:

The workshop is designed to acknowledge around 31 modern pedagogical techniques for succeeding academically, the techniques will build the confidence among faculties and helpful to make them academically sound

Pravara Rural Education Society was established in 1964 by Late Padmashri Dr. Vitthalrao Vikhe Patil, the pioneer of Sugar Co-operative movement. The Society has reached sky height under the able guidance of Late. Padmabhushan Dr. Balasaheb Vikhe Patil. Pravara Rural Education Society runs 125 educational units providing quality education from Kindergarten to Doctoral studies in the field of Pharmacy, Engineering, Science, Arts Commerce, Architecture, Polytechnic, Agricultural biotechnology, Agricultural & dairy sciences, and schools for higher & higher secondary education etc. Almost 41500 students from various states of India and culture are studying at Pravara complex.

Pravara Rural College of Pharmacy has its inception in 1987 when Bachelor of Pharmacy (B. Pharm) was started under University of Pune. The College offers post graduate courses (M. Pharm) in Pharmacognosy, Pharm Chemistry and Quality Assurance Techniques. The college has celebrated its silver jubilee year in 2011. It is one of the oldest pharmacy colleges in the University of Pune. Today it has marked its name in the world by continued research activities. It is imparting quality education in pharmacy to fulfil the need of Pharma industries and community.
